End Application:

F-16a/b aircraft age.

Nominallength:

16.000 inches

Nominalwidth:

14.000 inches

Special Features:

Matl: steel; finish: chrome plate

Functional Description:

Used during maintenance/overhaul of leading edge flap rotary actuators to measure alignment differences btwn actuator output arms

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
