**End Application:**

F-16a/b aircraft age.

**Nominallength:**

16.000 inches

**Nominalwidth:**

14.000 inches

**Special Features:**

Matl: steel; finish: chrome plate

**Functional Description:**

Used during maintenance/overhaul of leading edge flap rotary actuators to measure alignment differences btwn actuator output arms

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
