End Application:

F-16a/b aircraft age.

Product Name:

Cable, interface adapter

Special Features:

Wiring harness assembly-converter multiplexer; c/o flexible wires, mating connectors, appx 4 ft long

Functional Description:

Verifies absence of short (ircuits w/other elec. Circuits, continuity of signal circuits through interfacing connectors and wiring board layers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
