End Application:

Elect system test set 4920010654907

General Description:

2consists of: board, terminal 1, cap 4, chassis 1, circuit card 4, contact, keying 8, control, voltage amplitude 1, cover, terminal 1, file card 1, knob 1, link 1, link, terminal connector 2, pin, string 1, retainer, circuit card 1, transformer 1, wiring harness 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
