End Application:

F15a/b/c/d aircraft age.

Special Features:

Steel and aluminum; each alignment scope mounting fixture is 30 in. L, 27 in. W, 21 in. H; each target adapter is 22 in. L, 18 in. W, 10 in. H

Functional Description:

Used to provide a means to align the longitudinal axes of the aft fuselage and center fuselage during splicing of fuselage sections

Unpackaged Unit Weight:

240.000 pounds

Reference Data And Literature:

Serd no. 3686

Supplementary Features:

Company name-check fixture-aft/center fuselage

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
