End Application:

J85-ge-21 engine nozzle actuator system hydraulic power unit series 34e94-11

Special Features:

C/o base w/locating plate and a pivoted dial indicator; to name: measuring fixture

Functional Description:

Used in measuring spherical radius of concave bearing surface during repair of tilt block in the ven pump

Reference Data And Literature:

To 6j3-8-13-4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
