**End Application:**

T56-a-15 turbo-prop engine dual gear and booster type fuel pump

**Product Name:**

Adapter, outlet and bypass port

**Special Features:**

Hsteel sae-1020; cadmium plate; 4.410 in. Lg; 3.750 in. W; 3.560 in. H; used to connect the pump to the discharge piping system.

Contains the passages required to conduct fuel to four ports on the pump

**Reference Data And Literature:**

To 6j10-4-27-4

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A537k0
