End Application:

F-4e, rf-4c aircraft age.

Nominallength:

9.562 inches

Nominaldiameter:

4.000 inches

Special Features:

Stainless steel

Functional Description:

Used to clean the bearing shaft bore of the housing and motor assembly inertial measuring unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
