Assembly Form:

Rigid

End Application:

F4 acft

Work Holding Device Position Adjustability:

Nonadjustable

Special Features:

Operates on a 220 or 440 volt, 60 cycle, three-phase supply; approx. Wt. 3000.0 lbs

Functional Description:

Simulates operating conditions of a pump when it is installed in a consednt speed drive; provides equipment and instrumentation for testing proportional valves

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-c
