Mounting Type:

Floor

End Application:

An/gsm-291 air data test set

Portability:

Nonportable

Criticality Code Justification:

Supp

Product Name:

Air data test system

Special Features:

2.25 in h, 19.00 in w, 23.00 inl; 115/230vac, 1 phase, 45-440hz; in use altitude to 6000ft

Functional Description:

Precise, stable, easy to use pressure control system used to simulate and measure air pressures associated with aircraft in flight. Ieee-488 programmable. Dry air or nitrogen source and single or dual vacuum sources required

Entry Date:

04-12-28

Supplementary Features:

Critical tolerance, fit restriction, or application

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-x
