End Application:

F100-pw-100/200 engine

Nominal length:

13.000 inches

Nominal width:

17.000 inches

Nominal height:

14.000 inches

Special Features:

C/o machined aluminum housing for metering valve driving piston, cased dial indicator attached to one end for measuring driving piston movement; valving and external circuits required for testing are secured to housing; various fittings and tools required during testing operations are provided as part of the fixture

Functional Description:

Used to support/position gas generator metering assembly, provide travel indicating device, provide fluid test plumbing interface for suitable calibration test stand during preflow tests/adjustments

Reference Data And Literature:

Serd no. 3877

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
