End Application:

F-15a/b/c/d, fmf-15a/c/d/, fmf-15a, f-15j/dj, saf-15c/d aircraft age.

Usage Design:

Aircraft hydraulic system

Installation Design:

Portable

Engine Driven Hydraulic Pump Testing Design Feature:

Not included

Functional Classification:

Bb-3.4

Functional Description:

Used to control power and stimuli, monitors test parameters, and records test results

Reference Data And Literature:

T.O. 33d2-5-67-1; 33a1-2-224-1; 33d7-8-97-1

Supplementary Features:

Omajor components are valve/transducer panel, cabinet assembly which contain 400hz and 2500hz lvd simulator, 68d301014 cable assembly's, x-yy recorder, Oscilloscope, signal select panel, digital multimeter, freq response analyzer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
