Overall Length:

5.000 inches

Overall Height:

0.850 inches

Overall Width:

1.350 inches

End Application:

F-16 aircraft age. Radio frequency; ais test station, 2212450-003

Product Name:

Radio frequency linear amplifier

General Description:

Olid state; 4-40 unc-2b 0.160 deep 3-places; frequency range 9.0-10.6 ghz, 6.0-8.99 ghz and 10.61-11.0 ghz; rf input power available minus 10 to plus 7.5 dbm; rf output 50 ohms; dc output power; voltage plus 13 min, 900 ma max; oper temp 0c to 70c; oper altitude 0 to 6,000 ft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
