End Application:

F-16a/b age

Nominal length:

3.000 inches

Nominal width:

3.000 inches

Nominal height:

2.500 inches

Special Features:

Aluminum; company name-test fixture, servo valve

Functional Description:

Designed to interface with the servo valve identically to the engine starting system accessory drive gearbox

Reference Data And Literature:

Serd no. 24194

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
