End Application:

F100 aircraft engine age.

Nominalheight:

8.500 inches

Nominaldiameter:

11.500 inches

Special Features:

Matl: steel, ams 5062, aisi 1018

Functional Description:

Used on no. 5 bearing support, front and rear diameters

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
