**End Application:**

J85-ge-5/-13/-17/-17a turbojet engine age.

**Special Features:**

6matl: mild steel; finish: black oxide coated; c/o bottom plate w/mates w/compressor aft flange and is fastened to machine table, and round out ring which mates w/compressor's forward flange and provides datum surfaces for machining/gaging purposes

**Functional Description:**

Holes compressor casing on vertical turret lathe during finish machining of abradable coating applied by flame spray

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
