End Application:

J85-ge-5/-13/-17/-17a turbojet engine age.

Special Features:

6matl: mild steel; finish: black oxide coated; c/o bottom plate w/mates w/compressor aft flange and is fastened to machine table, and round out ring which mates w/compressor's forward flange and provides datum surfaces for machining/gaging purposes

Functional Description:

Holes compressor casing on vertical turret lathe during finish machining of abradable coating applied by flame spray

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
