End Application:

F100-pw-100/200/220/220e aircraft engine

Nominal length:

10.000 inches

Nominal width:

4.000 inches

Nominal height:

3.000 inches

Special Features:

Company item name-applicator, plasma spray

Functional Description:

Required for proper application of plasma spray to 7th stage compressor case

Reference Data And Literature:

Serd no. 4009

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
