End Application:

F100-pw-100/200 aircraft engine

Unpackaged Unit Height:

18.375 inches

Special Features:

Steel cylinder welded construction with flanged ends; 28.500 in. Dia; company item name-adapter

Functional Description:

Used to simulate the diffuser case during the hydrostatic test

Reference Data And Literature:

Serd no. 4065

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
