End Application:

Ln-39, standard inertial navigation unit

Special Features:

C/o aluminum alloy base, neoprene pad, two drill rod plugs and an "o" ring; matl: aluminum alloy (2024-t4), neoprene and drill rod; o/a dim: base 2.500 in. Dia., 3.500 in. Lg., pad 0.312 in. Thk., 4.125 in. Dia.

Functional Description:

Used to leak check accel subassembly (p/n 679605-2) during repair of a1000 accelerometer (p/n 679720-3)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
