**End Application:**

F16a/b speed brake hydraulic actuator

**Special Features:**

To name: arbor press nest

**Functional Description:**

Provides additional stabilizing area for actuator and clearance for piston rod when the piston and cylinder are flush at the top

**Reference Data And Literature:**

To 9h2-4-241-3

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
