End Application:

F16a/b speed brake hydraulic actuator

Special Features:

To name: arbor press nest

Functional Description:

Provides additional stabalizing area for actuator and clearance for piston rod when the piston and cylinder are flush at the top

Reference Data And Literature:

To 9h2-4-241-3

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A505c0
