Overall Length:

19.000 inches

Overall Height:

5.128 inches

Overall Width:

15.000 inches

End Application:

An/asg-21

Reference Data And Literature:

T.O. 33d5-30-20-11

General Description:

Simulated video target pulse; upon reaching zero range velocity direction automatically reverses; upon reaching zero velocity both velocity and acceleration direction automatically reverse

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
