End Application:
F100-pw-100/200 aircraft engine
Nominalheight:
1.800 inches
Special Features:
Steel; company item name-adapter drilling
Functional Description:
Used on 10th through 13th stage front compression case flange
Unpackaged Unit Weight:
58.000 pounds
Reference Data And Literature:
Serd no. 4199
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Filg:
A505c0
