**End Application:**

F11p/w100/200 engine

**Nominalheight:**

4.000 inches

**Nominaldiameter:**

24.000 inches

**Functional Classification:**

Gg-7.4

**Special Features:**

Steel

**Functional Description:**

Used to assemble 12th stage inner shroud vanes & outer shroud together for tackweld operations

**Reference Data And Literature:**

T.O. 2j-f100-94

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
