**End Application:**

F-16 a/b aircraft age.And c17 acft; nha flow control valve, p/n 396500-1-1

**Special Features:**

Company assigned name: tool, positioning, butterfly; material sae 4140 or 4340 stl ht to 36-40 rc, surface finish is black oxide

**Functional Description:**

C/o flat plate with counterbore in top surface and with jackscrew and jam nut through center; 4 holes slotted out to corners of plate correspond with hole pattern in lower flow body flange; secured with slave bolts; 1.80 in. Lg; 1.80 in w; 1.25 in. H; to ensure thrusting butterfly plate within flow body while measuring for the center position and holding assembly centered while installing spacer and seal in proper location

**Reference Data And Literature:**

Serd 410221

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A505c0
