Overall Length:

5.000 feet

Overall Height:

4.000 feet

Overall Width:

5.000 feet

Assembly Form:

Knocked-down or rigid

Work Holding Device Position Adjustability:

Adjustable

Special Features:

2 casters mounted to stand

Functional Description:

Supports fan rotor, forward end down, during installation of no. 2 bearing assembly to fan rotor and transports fan rotor in shop area

Fsc Application Data:

F101-ge-102 eng, b1b aircraft age

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T361-c
