Overall Length:

42.000 inches

Overall Height:

22.000 inches

Overall Width:

12.000 inches

End Application:

F101-ge-102 engine age.

Special Features:

Steel

Functional Description:

To lift liner in horizontal position during removal/installation of liner from/into exhaust nozzle duct when the duct is installed in the truck

General Description:

Bto lift liner in horizontal position during removal/installation of liner from/into exhaust nozzle duct when the duct is installed in the truck; steel; 42.000 in. L; 22.000 in. H; 12.000 in. Deep

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
