Major Components:

Printed wiring board 1; capacitor 8; harness 1; resistor 9; terminal 11; microcircuit 1; socket, plug-in electronic components 8; retainer-ejector 2

Component Quantity:

40

Usage Design:

Switching unit measurement and stimulus system

Mounting Configuration:

Plug-in type

Functional Description:

Used in support on the f-16 acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T01200
