**Major Components:**

Printed wiring board 1; capacitor 8; harness 1; resistor 9; terminal 11; microcircuit 1; socket, plug-in electronic components 8; retainer-ejector 2

**Component Quantity:**

40

**Usage Design:**

Switching unit measurement and stimulus system

**Mounting Configuration:**

Plug-in type

**Functional Description:**

Used in support on the f-16 acft

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T01200
