End Application:

F100-pw-100/200 aircraft engine

Special Features:

Consists of computer and peripherals; interface equipment; software programs; manual and automatic control; 245.000 in l, 168.000 in w, 108.000 in h; 26, 000 lbs

Functional Description:

Perform post overhaul testing

Reference Data And Literature:

T.O.33d4-6-587-1-1

Fsc Application Data:

Model fj-43, augmentor section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
