End Application:

Kc-135 re-engine

Product Name:

Support and rotating assembly

Functional Description:

Interfaces w/compressor rotor and stator cases to provide means to preload rotor in aft direction to stator case for wax check, locks rotor for anti torque while tightening hpt rotor shaft retaining bolt, also used in lifting engine assembly on/off verticle buildup stand

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
