Mounting Type:

Caster

Overall Length:

48.000 inches

Overall Height:

23.000 inches

Overall Width:

38.000 inches

Table Type:

Stationary

Floor Stops:

Included

Special Features:

Consists of: welded tubular frame, 2 upper support rails, 2 rigid casters, 2 swivel casters, and 4 adjustable jacks. The jacks are used to level and align the maint stand rails to the rails of the secondary power subsystem trailer, p/n 24a04000-001, for transferring the adg package or the apu to the sps trailer or from the trailer to the maint stand. The jacks are also used to lock the stand in place during maint or when not in use

Functional Description:

The accessory drive equipment maint stand provides a means of supporting the aux power unit and the accessory drive gearbox while components are being installed and/or removed at the intermediate or depot maint facility
