Overall Length:

24.000 inches

Overall Height:

12.000 inches

Overall Width:

16.000 inches

End Application:

F-15 acft

Test Item Connection Method:

Connector

Functional Description:

Used to electrically and mechanically interface the main memory module to the test station during depot level testing

Reference Data And Literature:

Serd no. 3866

Supplementary Features:

Company name-main memory test package

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537k0
