**Major Components:**

Printed wiring board 1; capacitor 8; resistor 3; polarizing key 2; electrical contact 6; socket, plug-in electronic components 3; retainer-ejector 2

**Component Quantity:**

25

**Usage Design:**

Mmu program/computer memory

**Mounting Configuration:**

Plug-in type

**Functional Description:**

Used in support on the f-16 acft

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T01200
