Major Components:

Printed wiring board 1; resistor 3; polarizing key 2; sockets, plug-in electronic components 3; retainer-ejector 2; harness 1

Component Quantity:

12

Usage Design:

Mmu program/computer memory

Mounting Configuration:

Plug-in type

Functional Description:

Used in support on the f-16 acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T01200
