End Application:

B-1b aircraft age.

Special Features:

C/o interface test adapter-electrical cables--software--overlays

Functional Description:

Interconnects and controls electronics display unit and automatic test equip during fault detection, fault isolation and repair verification of electronics display unit at intermediate and depot maintenance levels; verifies and monitors display of defensive threat situation formats, display of panoramic format of data selected by defensive subsystem operation, performs status monitoring and defensive subsystem operation

Supplementary Features:

Company item name-test package-electronics display unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
