End Application:

F110-ge-100

Functional Classification:

Aa-8.3

Special Features:

Roll around cabinet on 6 in. Casters w/floor locks; bin for storage of adapter kits to connect component under test

Functional Description:

Conditions air, measures and controls air flow, capable of troubleshooting some oil faults

Reference Data And Literature:

Serd no. 0209

Supplementary Features:

48.000 in. W, 82.000 in. Lg, 24.0000 in. H, 800.000 lbs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
