Overall Length:

33.000 inches

Overall Height:

16.000 inches

Overall Width:

33.000 inches

End Application:

B-1b f101-ge-102 engine age.

Product Name:

High pressure turbine stator assembly tool

Special Features:

C/o base, support, locating pins

Functional Description:

Used to locate and retain stator assembly during removal or installation from engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
