Major Components:

Capacitor 37, diode 5, jacks 4, plug 1, transistor 9, resistor 51, switch 2, intergrated circuit 2, socket 2, zener diode 2, printed wiring board 1

End Application:

4920-00-016-6937

Component Quantity:

116

Functional Description:

Used in support on the f-15 acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T01200
