**End Application:**

Jet engine f108-cf100; kc-135r

**Special Features:**

Manufacturers drawing name=machining fixture, abradable strip fan casing; c/o a centering ring with an arm, supporting at one end a milling cutter driven by an air motor, with a radial dial indicator; at mid arm, a dual rotary seal is provided for motor air supply and the vacuum cleaner coupling

**Functional Description:**

Used during machining operations

**Reference Data And Literature:**

Engine rebuild data

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A505c0
