End Application:

Kc-135r aircraft age.

End Item Source:

81039

End Item Name:

Test station

Special Features:

Current draw 0 to 10 amps max, variable controlled input 0 to 50 volts dc; switch controlled outposts, electric timer; operated by 115 v ac 60 hz source of power; use w/control panle electrical p/n at5530

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
