End Application:

Ln-39 inertial navigation system a10 acft

Special Features:

To support the calibration mirror and the gimbal assembly; contains locator blocks and dowel pins which hold the gimbal assembly in a precise location during the alignment operations; matl: steel and aluminum; o/a dim: 15 in. Lg, 12 in. W, 9.625 in. H; approx wt: 6 lbs

Functional Description:

Platform locator alignment fixture

Reference Data And Literature:

1j-a10

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
