End Application:

B-52g/h aircraft age.

Special Features:

C/o support plate 9.250 in. Lg., 5.000 in. W., 0.380 in. Thk upon which is welded vertical base plate 7.000 in. H., 2.500 in. W., 0.250 in. Thk. Round mtg plate is welded to base plate and is 4.010 in. Dia, 1.000 in. Thk, lever is mtd through opening in mtg plate w/ball bearing and pin on lever support arm. On one end of lever a notch is provided to locate/support weight and on opposite end the shoe type configuration contacts the valve actuator. A locating bar is welded to support and is used to position the valve actuator

Functional Description:

Used during aircraft maintenance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
