General Description:

Provides a simulated i.R.Target for tracking computer to track and permits detection of laser beam position so that error between line-of-sight can be determined; operating power 115vac, 400 hz, single ph., 1 amp; o/a dim. 5.000 in. H; 12.000 in. H; 22.000 in. D; wt 30.0 lbs

Fsc Application Data:

Aircraft maintenance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
