Overall Length:

52.000 inches

Overall Height:

8.000 inches

Overall Width:

52.000 inches

End Application:

Kc-135

Functional Description:

Used to manually drive in rotation the low pressure turbine rotor during disengagement/engagement of low pressure turbine assembly from/on its engine centering diameters

General Description:

dimensions: 52.000 in. L, 52.000 in. W, 8.000 in. H; c/o a handwheel with 3 bolts and 3 flat washers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
