End Application:

Kc-135r & f108-cf-100 (cfm56-2b-1) aircraft engine

Special Features:

To name: discharge port adapter

Functional Description:

Performs an internal leakage test for the number 5 stage valve of the turbine clearance valve

Reference Data And Literature:

To 2ja12-12-13

Fsc Application Data:

Test set, turbine clearance control valve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
