End Application:

F110-ge-100 engine age.

Nominallength:

57.000 inches

Nominalwidth:

20.000 inches

Nominalheight:

16.000 inches

Special Features:

C/o welded steel tubular structure c-shaped w/three clevised bars protruding in downward direction. Two of w/have single link secured at one end w/bolt. Third has single drilled hole through machined clevis. At either end there is machined fitting welded to downward tubular leg of c-shaped. Single hole in each to be accepted by frame stand. On top or backside of c-shaped is steel tube welded in place to accept lift adapter

Functional Description:

Used during aircraft maintenance, of accessory gearbox

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A505c0
