**End Application:**

Kc-135 aircraft main engine control

**Functional Description:**

Used to apply air, vacuum and fuel pressure for the compressor inlet temperature and altitude sensor calibration for the main engine control assembly

**Reference Data And Literature:**

To 6j3-4-113-4

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
