Overall Length:

40.000 inches

Overall Height:

48.000 inches

Overall Width:

52.000 inches

Functional Description:

Used to provide rate motion inputs to rate gyros and accelerometers

General Description:

Used to provide rate motion inputs to rate gyros and accelerometers. O/a dim: 48.000 in. H., 52.000 in. W., 40.000 in. Depth.; wt: 700 lbs; input-900 watts; heat 600 watts; dissipation: 110/208 vac; 47-67 hz; agavgf/fb-111 acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
